As in all Marquis Who’s Who biographical volumes, the individuals profiled in *Who’s Who in the World* are selected on the basis of current reference value. Factors such as position, noteworthy accomplishments, visibility, and prominence in a field are all taken into account. An individual’s desire to be listed is not sufficient reason for inclusion. Similarly, wealth and social position are not relevant criteria. Final decisions concerning inclusion or exclusion are made following extensive discussion, evaluation, and deliberation.

Included in the 30th edition of *Who’s Who in the World* is the Professional Index. Within the index, each biographee is listed alphabetically by occupation. This reference tool makes it easier than ever for interested readers to find biographees in any given profession.

Biographical information is gathered in a variety of manners. In most cases, we invite our biographees to submit their biographical details. In many cases, though, the information is collected independently by our research and editorial staffs, which use a wide assortment of tools to gather the most complete, accurate, and up-to-date information available. Sketches researched by Marquis Who’s Who are followed by an asterisk (*).

While the Marquis Who’s Who editors exercise the utmost care in preparing each biographical sketch for publication, it is inevitable in a publication involving so many profiles that occasional errors will appear. Users of this publication are urged to notify the publisher of any issues so that adjustments can be made, which will not only be reflected in all subsequent editions of the book but which can now be immediately displayed via Marquis Biographies Online.

All of the profiles featured in *Who’s Who in the World* are available on www.marquiswhoswho.com through a subscription. Alphabetical Practices

Names are arranged alphabetically according to the surnames, and under identical surnames according to the first given name. If both surname and first given name are identical, names are arranged alphabetically according to the second given name.

Surnames beginning with De, Des, Du, however capitalized or spaced, are recorded with the prefix preceding the surname and arranged alphabetically under the letter D.

Surnames beginning with Mac and Mc are arranged alphabetically under M.

Surnames beginning with Saint or St. appear after names that begin Sains, and are arranged according to the second part of the name, e.g., St. Clair before Saint Dennis.

Surnames beginning with Van, Von, or von are arranged alphabetically under the letter V.

Compound surnames are arranged according to the first member of the compound.

Many hyphenated Arabic names begin Al-, El-, or al-. These names are alphabetized according to each biographee’s designation of last name. Thus Al-Bahar, Neta may be listed either under Al- or under Bahar, depending on the preference of the listee.

Also, Arabic names have a variety of possible spellings when transposed to English. Spelling of these names is always based on the practice of the biographee. Some biographers use a Western form of word order, while others prefer the Arabic word sequence.

Similarly, Asian names may have no comma between family and given names, but some biographees have chosen to add the comma. In each case, punctuation follows the preference of the biographee.

Parentheses used in connection with a name indicate which part of the full name is usually omitted in common usage. Hence, Chambers, E(lizabeth) Anne indicates that the first name, Elizabeth, is generally recorded as an initial. In such a case, the parentheses are ignored in alphabetizing and the name would be arranged as Chambers, Elizabeth Anne.

However, if the entire first name appears in parentheses, for example, Chambers, (Elizabeth) Anne, the first name is not commonly used, and the alphabetizing is therefore arranged as though the name were Chambers, Anne.

If the entire middle name is in parentheses, it is still used in alphabetical sorting. Hence, Belamy, Katherine (Lucille) would sort as Belamy, Katherine Lucille. The same occurs if the entire last name is in parentheses, e.g., (Brandenberg), Howard Keith would sort as Brandenberg, Howard Keith.

Smith, H(enry) George: Sorts as Smith, Henry George
Smith, (Henry) George: Sorts as Smith, George
Smith, Henry (George): Sorts as Smith, Henry George
(Smith), Henry George: Sorts as Smith, Henry George
